Online Library

Instructions for Website & how to search online library with Zotero

How to search for and access publications in our "online library"

- **Access the Zotero library**

- https://www.zotero.org/groups/2789827/ecg_science_hub_online_library/library

- **Searching for documents:**

- Use the search field in the upper right corner to search for key words or authors

Groups Documentation Forums Get Involved Log In

- **Working with the overview:**

- You can sort the library by title, author (creator), item type, year, etc.
- The item types shows if the publication is a thesis, a book chapter, a journal article, or a book
- By clicking on the little table icon at the top right, you can add further fields to display in the overview

- **Getting more information on a file**

- By clicking on an entry, a pop-up on the right will show you further information.

- **Getting the full text**

- If the file is open access or a thesis, you can retrieve the full text from our ECG online library of scientific texts.
- You can click on the URL (in the detailed view) to access the online library
